Faculty

John M. Elliott  
Codirector, Professor of Political Science

Kathy J. Krynski  
Codirector, Associate Professor of Economics

This concentration stresses the analysis and understanding of public-policy issues. Participants will learn how to apply the disciplines of economics and political science to analyze public-policy problems and to understand how public policy is formulated, decided upon, and implemented. Students will begin by taking foundation courses in the two disciplines. The principles learned in these foundation courses will then be applied to specific policy areas in the elective courses. The concentration culminates in an interdisciplinary capstone course, which will focus on the economic, moral, and political considerations entailed in analyzing and evaluating public policy and its purposes. In a typical program, a student would take ECON 101 and ECON 102 as a first- or second-year student, PSCI 310 in the sophomore year, 1 1/2 units of electives following these foundation courses, and the capstone course, PPOL 440, in the senior year.

Requirements of the Program

The concentration encompasses 3 1/2 units in economics and political science. All students are required to take the three foundation courses and the capstone course. The foundation courses are ECON 101 (Principles of Microeconomics and Public Policy), ECON 102 (Principles of Macroeconomics and International Trade), and PSCI 310 (Public Policy). The remaining 1 1/2 units will be selected from the electives designated as appropriate for the concentration. Economics majors must take at least 2 units in political science, and political-science majors must take at least 2 units in economics, excluding the capstone course. Other majors must take at least 1 1/2 units in each department.

Required Courses

ECON 101 Principles of Microeconomics and Public Policy
ECON 102 Principles of Macroeconomics and International Trade
PSCI 310 Public Policy
PPOL 440 Senior Seminar in Public Policy

Economics Electives

ECON 331 Economics of Development (offered spring 2004)
ECON 336 Environmental Economics (offered spring 2004)
ECON 342 Economics of Regulation (offered spring 2004)
ECON 345 Economic Analysis of Politics and Law (offered spring 2004)
ECON 347 Economics of the Public Sector (offered fall 2003)
ECON 348 Comparative Economic Systems
ECON 372 Macroeconomic Policy
ECON 378 Economics of Women and Work (offered spring 2004)
ECON 383 American Economic History
ECON 385 The Environment and the Developing World

Political Science Electives

PSCI 241 State and Economy (offered spring 2004)
PSCI 300 Congress and Public Policy-Making
PSCI 305 Urban Politics
PSCI 311 American Public Policy: School Reform
PSCI 313 Making American Foreign Policy (offered spring 2004)
PSCI 342 Politics of Development (offered fall 2003)
PSCI 363 Global Environmental Politics
PSCI 372 U.S. Foreign Policy Since World War II
PSCI 450 From State to Market: Deregulation and Retrenchment in Advanced Industrial Democracies
PSCI 462 U.S. Foreign Policy after the Cold War (offered fall 2003)
PSCI 480 Science and Politics

The codirectors from the two departments, economics and political science, will certify when students have completed the concentration. Courses taken for the concentration may also count for the major.

First-Semester Course

Capstone Seminar in Public Policy

PPOL 440 (1/2 unit)
Fred E. Baumann, professor of political science; Richard Trethewey, professor of economics

This seminar brings together a political scientist and an economist to consider how these disciplines approach the study of public policy. The course will concentrate on applying both of the disciplines to the study of public policies in the broad realm of urban problems and poverty. We will explore the substantive issues and the process of governmental policy-making in these two realms. How is policy made? What should the policy be? The work of scholars in each discipline will be studied to
better understand the differences in approaches and to consider the potential for combining them. What does political science contribute to the study of economic policy-making? What can the tools and perspective of economics contribute to the study of a topic like urban politics? The course is required for students completing the Public Policy Concentration, and it is open to other seniors. Prerequisites: ECON 101, ECON 102, and one course in American politics, or permission of instructors. Enrollment limited.
